

## **Kisumu Campus Website Sensitization**

On 16th and 17th November 2016, the website team lead by Ian Masinde and Dennis Waimea carried out web sensitization exercise in Kisumu Campus. The objective was to sensitize and train scholars, Web Champion and Campus ICT Officers on matters to do with the websites. Covered all the parameters such as Impact, Presence, Transparency, Social Media and Google Scholar; the website team is putting more effort to ensure the college, and to a larger extent, the University of Nairobi continue to provide timely information to its stakeholders as well as improve its global ranking in Webometrics.

On his welcoming speech the Director Kisumu Campus, Dr. Vincent Machuki gave a broad introduction on webometric and justified why the exercise it's important. He also noted that Kisumu Campus would improve in delivering ICT activities because the new complex building has come up with advanced high-tech facilities, Network connectivity/Wi-Fi all over and latest they completed one of the largest computer labs with a holding capacity of over Forty computers.
